RATINGS

Key Risks Continued: The fund may invest in smaller company shares which can be more unpredictable and less liquid than those of larger company shares. Compared to more established economies, the value of investments in developing Emerging Markets may be subject to greater volatility due to differences in generally accepted accounting principles or from economic or political instability. The fund can invest in mining shares which typically experience above average volatility when compared to other investments. Trends which occur within the general equity market may not be mirrored within mining securities.
